LEGAL BASIS

- **Existing legal basis**
 - Procurement Review Body exercises its activity in accordance with Law no. 04 / L-042 on Public Procurement in the Republic of Kosovo, Law no. 04 / L-237 on Amending and Supplementing the Law no. 04 / L-042 on Public Procurement in the Republic of Kosovo, Law no. 05 / L-068 on Amending and Supplementing the Law no. 04 / L-042 on Public Procurement in the Republic of Kosovo and Law no. 05 / L-092 on Amending and Supplementing the Law no. 04 / L-042 on Public Procurement of the Republic of Kosovo, as amended by Law no. 04 / L-237 and Law no. 05 / L-068, and Regulation no. 01/2017 of the Procurement Review Body, as well as secondary public procurement legislation drafted by the Public Procurement Regulatory Commission.
- **Legal difficulties encountered by the Procurement Review Body in fulfilling its mission**
 - The lack of selection of board members has caused an overload in the work of the PRB but given the number of complaints received and those completed by

the end of the year, we can say that the situation is being well managed by current Board members of the PRB.

- During 2020 the Procurement Review Body was confronted in its work with the Covid 19 pandemic, just as all public and international institutions were confronted. The absence of two Board members and the work during the pandemic have been a major difficulty for the Procurement Review Body.
- The Procurement Review Body has, over the years, highlighted the small number of internal staff, especially reviewing experts, thus forcing it to engage a large number of external experts to review complaints received as in 2019 have increased. For this reason, the PRB considers that it is necessary that the budget allocated to the PRB as a budget organization be increased in order to meet the needs for the engagement of external professional and technical review experts, to increase the number of training of current staff and the staff are newly hired, and additional positions approved in proportion to the number of complaints received.
- **Improving the legal basis**
- Procurement Review Body at the end of 2019 had initiated an amendment / supplement the internal rules of procedure, in which case the recommendations of Mr. Steen Bruun-Nielsen- expert engaged by the TIM project for PRB have been identified and the suggested models for act-expertise and decision of review panels, have been included as internal acts of the Procurement Review Body. The regulation initiated during 2019 at the beginning of 2020 have been finalized. Procurement Review Body, during 2020 has worked with the new rules of procedure which of course has influenced the quality work of staff and review experts.
- Also, the Procurement Review Body is part of the working group for legal changes which are planned to be made in the field of public procurement initiated in January 2019 by the Ministry of Finance. The Working Group established by all relevant institutions of 23 members, are working on the Drafting of the new Law on Public Procurement.
- Public Procurement Review Body, has its member part of the group through which it is working in the part for the PRB always keeping in mind

the importance that the PRB has for the overall strengthening of the public procurement system of Kosova, and legal handling of complaints in a professional manner and on a legal basis.

- Wages and salaries were divided into 267,722.00 € while 201,512.80 € were allocated and spent.
- Goods and Services according to the Budget Law for 2020 have been planned 129,355.00 Euros, but with the budget review 92,886.61 Euros have been allocated and due to the obligations the PRB at the end of 2020 has requested additional funds and the Government of Kosova according to decision no. . 09/50 has allocated an amount of 55,000.00 and the final annual budget for this category was 147,886.61 Euro while the annual budget spent for this category was 133,183.32 Euro

(Please briefly outline the main changes in terms of estimated and actual values for each category. Do not exceed the space provided below)

Additional takes the IT official while the rest is paid according to the coefficient set.

According to the 2020 Budget Law, 30 positions are allowed and at the end of the year there were 4 positions, starting with two board members and 2 other with civil servants, and this has affected the budget for the category of wages and salaries. it is spent at 75% of that planned and allowed, and it should be noted that in this category funds are allocated only for the monthly amount spent (for the number of positions filled).
